PENSIONS CUT OFF

Washington, D. C., May 20.—United States pensioners living in Germany and who have been drawing money from the American government by rea-son of their services in the Civil war or for other reasons, have had their allowances cut off because of their residence in enemy territory. Payment of pensions will not be resumed until peace is de-clared. Congress has been told, although allowances are sent regularly to those residing in the countries allied against Germany and Austria or in neutral

A report submitted to Congress show that in the fiscal year ended June 30, 1917, there were 371 Americans residing in Germany entitled to pensions under the laws of this country, and that in Austria Hungary there were 27 American pensioners. These facts were discussed in the House recently when a bill increasing the pension of civil war veterans to a minimum of \$25 a month was under consideration.
